

CCC report for WC2006

WC2006

The CCC was not very successful in monitoring progress by Seoul, Korea for WC2006. Barry Allen attempted to monitor the budget development over time but was rather unsuccessful in this. Dov Jaron and Joachim Nagel attended a meeting in Seoul, which was rather too late in the development of budget and other considerations. However, they were able to make positive inputs into the process. It is expected that the meeting will be a success on all fronts.

WC2009

The Committee developed the contract for wc2009, which had been awarded to Munchen, Germany. Final amendments were made to the contract before WC2006, at which time the contract is expected to be signed.

WC2012

Applications for 2012 were invited and only China offered a submission. The final decision for 2012 will be made at Seoul, after the presentation by China, on the basis of a compilation of votes collected at the IFMBE General Assembly and IOMP 2nd Council meeting and subsequently formally announced at the IUPESM General Assembly.

A Letter of Agreement will be signed by officials of the IUPESM and Chinese delegation, noting that a formal Contract will be signed at WC2009.
